

Imani Jewelry Designer (US based)

Description: This internship position in the USA is an exciting opportunity to change the world right from your own home. You will be helping women in Uganda who are escaping the sex-industry and beginning a new life through counseling and employment. Your job would be to focus on designing fashionable products for our Imani Jewelry line with materials sourced in Uganda.

About Zion Project:

Zion Project is a faith-based 501c3 (NGO) operating in the war-torn region of northern Uganda offering healing counseling and empowerment through alternative employment to women and formerly abducted girls caught in the sex-industry. We also operate a girl's Rescue Home for children who are sexually exploited.

About Imani:

Imani is a socially conscious business based in the war-affected region of northern Uganda which seeks to free women from the global sex trade and alleviate poverty through healing, empowerment, and fashion design.

We partner with women escaping the sex trade to create jewelry which is handmade from indigenous materials. All jewelry is hand-crafted in northern Uganda and women receive fair trade wages, which empower them to provide for their families and educate their children.

Imani also offers trauma counseling, savings and business classes, and English classes to all the women we employ in an effort to see them reach their potential.

Overall Program Details

Volunteer position with potential to work towards employment depending on how Imani grows. Part time-full time depending on availability, but a commitment of one year, at least 20-30 hours a week. This is an unpaid internship and college credit is possible if you approve it with your university in advance. Applications will be reviewed on a rolling basis.
